

Domine

Michelle Tumes

Forty days I cried with no reprieve
The tears that raised the tide were crashing over me
Forty days I cried with no reprieve
Too far to look ahead
Surround my heart Your grace amends

Domine, Domine
Make my path run straight
Lift my heart, speak my name
I fall, I break
Domine, Domine
Find me far away
Stay, take my pain, I am praying
Domine

I tried to wade so high above reality
I crashed into the lies of calamity
I tried to wade so high above reality
Arrows fly around my head
Cloud their course, Your love protects

Domine, Domine
Make my path run straight
Lift my heart, speak my name
I fall, I break
Domine, Domine
Find me far away
Stay, take my pain, I am praying
Domine

In the driven snow
With the world unknown
I believe in the heavenly sun
Melt my world away
See Your face
Again
