Let It Rain

Michelle Tumes

Awake me You whisper on the breeze calling my name Stirring Storms of You, sweet lightning I wait here Shifting winds suddenly change Feels like rain

And You're rolling like thunder Heaven's wings will lift me up with rain Will You raise me on Your river Holy water falling down like rain Let it rain

Searching Above the sea of clouds, You're all I see Endless Tapestry of streams dancing Around me Starlight in shimmering waves I feel rain

And You're rolling like thunder Heaven's wings will lift me up with rain Will You raise me on Your river Holy water falling down like rain Let it rain

Ooh, let it rain...

And You're rolling like thunder Will You raise me on Your river
