Didn't Know

Michelle Williams

Woke up this mornin' And the sun was shinin' Hey i feel so good now No more worries on my mind I've been just smilin' Feelin' your love around me Havin' you right beside me All my problems pass me by

Didn't know I'd be so happy Didn;t know I'd be so free Didn't know your love could change me I live in total victory So many people tried to hurt me They didn't know that it would help me Because of you, I'm much better I didn't know, I didn't know

I feel so free Can do anything Loosed from people that were holding me I can see clearly now Tears so full of joy No need to let them near me No more compromise No hurting me or deceiving me oh

Didn't know I'd be so happy Didn;t know I'd be so free Didn't know your love could change me I live in total victory So many people tried to hurt me They didn't know that it would help me Because of you, I'm much better I didn't know, I didn't know

Now my world is free from guilt and pain For you I turned in my broken heart

Didn't know I'd be so happy Didn;t know I'd be so free Didn't know your love could change me I live in total victory So many people tried to hurt me They didn't know that it would help me Because of you, I'm much better I didn't know, I didn't know
