

# Fire

Michelle Williams

It take any think that ain't worth but it must take it slow  
And know when you come around me no chase 'bout your...  
Let's say what we have to say  
I lay down my head  
I don't know no other way but to let you have your way  
And no always feel that we acting like ...  
You say, I can say and ...burn ...ties inside  
It feels just like fire, fire, fire all of me  
Don't leave me alone, don't leave me alone  
I need to feel that he will find the fire, fire  
Don't leave me alone, don't leave me alone  
Just shine bright he stars in the night  
But need to feel that he come from your fire, fire  
Boy, boy  
Just like that boy shine in me, shine al let me go  
I know ...and the flames won't be smelling like smoke ooh no  
Yep that's just what you say  
It went straight to my head, remembering every day  
To let you have your way  
And not always feel we  
And no always feel that we acting like ...  
You say, I can say and ...burn ...ties inside  
It feels just like fire, fire, fire all of me  
Don't leave me alone, don't leave me alone  
I need to feel that he will find the fire, fire  
Don't leave me alone, don't leave me alone  
Just shine bright he stars in the night  
But need to feel that he come from your fire, fire  
When you're the ...I'll be your...  
The pressure ....lay down and tend to sky  
Turn up the fire I wanna feel the fire  
All over me ...  
It feels just like fire, fire, fire all of me  
Don't leave me alone, don't leave me alone  
I need to feel that he will find the fire, fire  
Don't leave me alone, don't leave me alone  
Just shine bright he stars in the night  
But need to feel that he come from your fire, fire  
It feels just like fire, fire, fire all of me  
Don't leave me alone, don't leave me alone  
I need to feel that he will find the fire, fire  
Don't leave me alone, don't leave me alone  
Just shine bright he stars in the night  
But need to feel that he come from your fire, fire, fire, fire
