

# Heaven

Michelle Williams

Now that its over,  
There's no more use for guns and wars.  
Costs me a lifetime, just to gain this life's reward.

They say streets of gold.  
Can you imagine somewhere where life will never ends?  
No one ever grows old.  
Oh my brother , please come with me.

It's what I live for.  
A place where love will never cease.  
Willing to die for.  
Heaven is where I want to be.

There are instructions that we must follow to a "t".  
In order to reach them.  
Heaven is where I want to be.

They say streets of gold.  
Can you imagine somewhere where life will never ends?  
No one ever grows old.  
Oh my brother , please come with me.

It's what I live for.  
A place where love will never cease.  
Willing to die for.  
Heaven is where I want to be.

No more night, There is a place where there'll be no  
more crying, yeah.  
And He is Life. Counting those days when we meet in  
the place...

Willing to die for... (ooh yeah.)

It's what I lived for.  
A place where love will never cease.  
Willing to die for.  
Heaven is where I want to be. (I want to be)
