

# The Greatest

Michelle Williams

Thought I was standing tall  
I thought I'd seen it all  
But baby I was wrong  
Cause you're the greatest

I walked a thousand miles  
But nothing's what I found  
Until you came around  
'Cause you're the greatest

Searched high and low for love just  
To find out, that it was here all along  
I know it, what I wanted it  
I should have been chasing you

And I was reaching for the stars  
But I didn't have to look so far  
Cause love is where you are  
But I didn't have a clue

And now I realize  
That the stars are in your eyes  
'Cause you always shine  
Baby, you're the greatest

Thought everything had change  
Until the day you came  
And took away the pain  
Baby, you're the greatest

I always wore a frown  
I never used to smile  
Until you showed me how  
Baby, you're the gratest

Searched high and low for love just  
To find out, that it was here all along  
And I know it, what I wanted it  
I should have been chasing you

And I was reaching for the stars  
But I didn't have to look so far  
'Cause love is where you are  
But I didn't have a clue

And now I realize  
That the stars are in your eyes  
'Cause you always shine  
Baby, you're the greatest

Reaching for the stars and then I bumped into you  
And I cannot believe that I was searching so long  
Ohhh baby I'm so taken  
And all that I need is look into your eyes

And I was reaching for the stars  
But I didn't have to look so far

'Cause love is where you are  
But I didn't have a clue

And now I realize  
That the stars are in your eyes  
'Cause you always shine  
Baby, you're the greatest
