

# All You Really Wanna Do

Michelle Wright

Take heart  
Little sister  
You can't wait till you're all grown up  
Mama's always sayin' you're not old enough  
And all you really want to do is to fall in love.

Take hope  
Will you mister  
You didn't know it could hurt so much  
When a man gets fooled by a tender touch.  
All you really want to do is to fall in love

Don't want to feel so blue  
Or live in a world so cruel  
You don't want to cry 'cause you got a heart so true

All you really want to do is to give it  
Find yourself that one in a million  
All you really want to do is to fall in love.

The right words  
In a whisper  
Draw emotion like a knife draws blood  
In the arms of the one you're dreaming of  
All you really want to do is to fall in love.

Don't want to feel so blue
