

# Don't Start With Me

Michelle Wright

I know what you're feeling inside  
Hunger that can cut like a knife  
I can see the wanting in you  
I know 'cause I'm feeling it too  
But I don't want you tonight  
I want forever...

Don't start with me  
Unless you're gonna love me endlessly  
Until you're through will all your used-to-be's  
Look in my eyes

And tell me that you're never gonna tell me lies  
You say you've never broken a heart  
Baby don't start with me

I'm ready to believe what you say  
That this is more than just the love that we'll make  
But if there is a shadow of doubt  
Baby turn and walk away now  
'Cause losing you would tear me apart  
Once we're together

Don't start with me  
Unless you're gonna love me endlessly  
Until you're through will all your used-to-be's  
Look in my eyes

And tell me that you're never gonna tell me lies  
You say you've never broken a heart  
Baby don't start with me

I don't want to learn  
That all it's about is now  
'Cause when I begin to burn  
I don't want the fire going out

Don't start with me  
Unless you're gonna love me endlessly  
Until you're through will all your used-to-be's  
Look in my eyes

And tell me that you're never gonna tell me lies  
You say you've never broken a heart  
Baby don't start with me

Unless you're gonna love me endlessly  
Until you're through will all your used-to-be's  
Look in my eyes  
And tell me that you're never gonna tell me lies  
You've never broken a heart  
Baby don't start with me
