

What's Better Than This

Michelle Wright

What's better than this?
What, what's better than this?

We haven't made it to Paris or Rome
Not Hollywood, not even Tupelo
Still driving this same old truck
Yeah, it gets us where we're going but it isn't much
Got each other, don't need anything else
I keep asking myself

What's better than this?
Is it diamond rings or a whole lot of money?
There's nothing on my list
That you don't bring to my life and it's funny
That ever since I felt your touch
Ever since that first kiss
I'm thinking
What's better than this?
Nothing

We haven't won the lottery yet
But we're buying all the tickets that we can get
We're still living in our little love shack
With the flowers out front and Barney barking out back
Might hit the big time, maybe not
But look what we've already got

What's better than this?
Is it diamond rings or a whole lot of money?
There's nothing on my list
That you don't bring to my life and it's funny
That ever since I felt your touch
Ever since that first kiss
I'm thinking
What's better than this?
Nothing

We've got love more than enough
And I'm asking you what

What's better than this?
Is it diamond rings or a whole lot of money?
There's nothing on my list
That you don't bring to my life and it's funny
That ever since I felt your touch
Ever since that first kiss
I'm thinking
What's better than this?
Nothing

There's nothing better than this
No, no nothing
