

# Let's Work

Mick Jagger

No sitting down on your butt  
The world don't owe you  
No sitting down in a rut  
I wanna show you  
Don't waste your energy  
On making enemies  
Just take a deep breath  
And work your way up

Let's work, be proud  
Stand tall, touch the clouds  
Man and woman, be free  
Let's work, kill poverty

La, la, la  
Work your way up

Let's work, be proud  
Stand tall, touch the clouds  
Man and woman, be free  
Let's work, kill poverty

You're sitting down on your butt  
And your get greedy  
You start to lose your nuts  
Don't you look seedy  
Can generosity bring you humility  
So take a deep breath

Ain't gonna sweat for you  
Ain't gonna sigh for you  
Ain't gonna cry for you  
If you're lazy

Ain't gonna slave for you  
Ain't gonna hurt for you  
It just won't work for you  
If you're lazy

Let's work, be proud  
Stand tall, touch the clouds  
Let's work, let's eat  
Let's live in ecstasy  
Man and woman, be free  
Let's work, kill poverty

Let's work, be proud  
Stand tall, touch the clouds  
Man and woman, be free  
Let's work, let's work  
Get down in the dirt and let's work  
Get down in the dirt and let's work  
Get up, be free  
Get down in the dirt, let's work  
Get down in the dirt, let's work  
Get down in the dirt  
Take off your shirt

Get down in the dirt  
Let's work
