

# Say You Will

Mick Jagger

R: Cast all your fears aside and say you will, say you will be mine  
And stay with me until the end of time and help me, help me grind  
this mill of life  
Please, say you will, say you will be mine.

And times and customs may change and life may get dizzy  
My heart is deep in the country, but I live for the city  
Chasing those greenfields that lie just over the hill  
Isn't it time that I rested, time to stand still  
I need a lover surely as I need a friend  
Someone whose laughter I'll lean on to tie our lives together.

R:

We're on a ship out to sea and it's stormy weather  
Why don't you promise to me devotion forever  
The hillsides are yellow and green and the olives still bloom  
We will make passionate love by electrical moons  
I need a lover surely as I need a friend  
Someone whose laughter I'll lean on  
To tie our lives together.

R:

Cast all your fears aside and say you will,  
Cast all your fears aside and say you will,  
You make my heart come alive say you will,  
Help me, help me, help me, help me  
Grind this mill. grind this mill of life  
Say you will, Say you will be mine  
Come on, come on, come on, come on  
Say you will, Say you will be mine..
