

# Shoot Off Your Mouth

Mick Jagger

You say you love me  
Why do you always do me down down down?  
I hit rock bottom  
You gave me up without sound, sound, sound  
But now I'm back in town and feeling mighty fit  
I'm sick and tired of eating all your chicken shit  
So keep on looking for me  
Once I was lost but now I'm found, found, found

I was a rising star  
You hitched your wagon next to mine, mine, mine  
The sun was shining bright  
I guess I never read the sign, sign, sign  
Right at the moment that you saw my hand first slip  
Just like a dirty rat you jumped the sinking ship  
So keep on looking for me  
Once I was lost but now I'm found, found, found

Find me in the palace  
Find me on the street  
Find me back in church  
Right in my favourite seat  
Now you're a notch on my gun  
Who are you to shoot off your mouth?

Wild-eyed and crazy  
I always threw my cash around, round, round  
You put the boot in  
Until the bottom fell right out, out, out  
I turned around  
You smell like Monday morning's fish  
I can't get near enough to take a goodbye kiss  
So keep on looking for me  
Once I was lost but now I'm found, found, found

Find me in the movies  
Right on the TV screen  
Keep on searching for me  
And you will hear me scream  
Now you're a notch on my gun  
Now you're a notch on my gun  
Who are you to shoot off your mouth?  
Shoot off your mouth

But now I'm back in town and feeling mighty fit  
I'm sick and tired of eating all your chicken shit  
So keep on looking for me  
Once I was lost but now I'm found, found, found

Find me in the palace  
Find me on the street  
Find me back in church  
Right in my favourite seat  
Now you're a notch on my gun  
Who are you to shoot off your mouth?  
Shoot off your mouth  
Shoot off your mouth

Shoot off your  
Don't shoot, don't shoot, don't shoot  
Don't shoot, don't shoot, don't shoot
