

I Still Miss You

Mickey Gilley

Everything I do is wrong but right are wrong I'll go on because
I love you
Because I need you
Loving you may be a sin and your love I'll never win but I'll keep trying
My heart keeps crying
A sin to love you is all they can say forget you and leave you
but I need
Your love today
And though it hurts me deep inside this love of mine I just can't hide I
Love you I still need you

And though it hurts me deep inside this love of mine I just can't hide I
Need you I still love you
A sin to love you is all they can say forget you and leave you
but I need
Your love today
And though it hurts me deep inside this love of mine I just can't hide I
Love you I still need you
