

# Song We Made Love To

Mickey Gilley

To hard to think about', to sad to talk about  
That part of me is gone  
I can't start all over 'cause I can't forget you  
You're always there when I hear that song.

Well, that's the song that we made love to  
Now I can't forget you  
It's got to be my favorite song, that sweet sad song  
That song that we made love to.

Don't know why I'm playin; ' the song that's playin' now  
Lord, it make me think of you  
It was such a special tune the first time we heard it  
Was the night we feel in love.

We turned the light down low  
I said I love you  
We held each other all night long  
And we playd that song.

That song that we made love to.  
That old song that we made love to...
