Midge Ure

One thing I know I've learned over all The more that you trust  
The harder you fall The more you believe The more you recall

You'll see the signs You'll hear the sound When your feeling of  
hope Is turned upside down My hope lay in tatters Lying cold o  
n the ground When I found

You lied Form your head down to your toes You lied But somehow  
I know I'll survive And I can't believe another word you say So  
go your way You lied

You lied From your head down to your toes, you lied But somehow  
I know I'll survive And I can't believe another word you say S  
o go your way

You lied Every little word you said, you whispered lies And rig  
ht now I despise Every thing I find that came from you 'Cos I h  
urt too You lied

You lied As you looked me in the eyes, I say you lie But someho  
w I knew I'd get by When nothing seems to matter anymore Who di  
d you lie for

You lied From your head down to your toes, you lied But somehow  
I know I'll survive And I can't believe another word you say S  
o go your way

You lied Every little word you said, you whispered lies And rig  
ht now I know I despise Every thing I find that came from you '  
Cos I hurt too You lied
