

# Light In Your Eyes

Midge Ure

I never noticed before  
Sometimes I'd find that I'd tried to be blind to it all  
But something has changed  
Something quite wonderful  
I see light in your eyes tonight

Could I hope anymore  
'cause never a word of affection was heard, none at all  
But something has changed  
Something quite wonderful  
I see light in your eyes tonight

But oh, it's hard to find and hard to keep inside  
Harder still to bend my foolish pride  
Oh, for the way to say  
The things I should say

This innocent love  
Never so much as the tenderest touch, none at all  
But some things must change  
For something so wonderful  
I see light in your eyes tonight  
Light in your eyes tonight  
Light in your eyes tonight

This innocent love  
Never so much as the tenderest touch, none at all  
But some things must change  
For something so wonderful  
There's light in your eyes tonight  
Light in your eyes tonight  
Light in your eyes tonight
