

You Move Me

Midge Ure

Rolling around my head
Shaking me blindly
Killing me kindly

Running around my heart
beating me softly
Beating me every way

And I have never felt this emotion before
Ooh, I if I could stand up straight I'd take control

You move me
(in a wild and wicked way)
You move me
(like the tide on a blue, blue day)
Oh I don't know how to make myself understand
That life goes on when the rush is gone
If only I could make believe I'd let it be

But you move me

Doo doo doo doo....

You move me
(in a wild and wicked way)
You move me
(like a tide on a blue, blue day)
Oh, I don't know how to make myself understand
That life goes on when the rush is gone
If only I could make believe I'd let it be
Live a lie and let Love die and set it free

But you move me

You move me
You move me

Live a lie and let Love die and set it free

You move me
(in a wild and wicked way)
You move me
(like a tide on a blue, blue day)
You move me
(like a dream in the afterglow)
You move me
(like a song on the radio)
You move me
(like an engine on gasoline)
You move me
(like a diamond on Vaseline)
