

# Forgive Me

**Midget**

[Midget Hook]

Forgive me for what I've done in the past  
'Cause now I've found my rightful path  
I've swam through broken glass  
And slept with broken hearts  
You'd watch me burn down, in a trail of molt and sparks  
So please believe, girl you gotta forgive me

[Midget Verse 1]

I know I've done you wrong, and I can hear your screams  
And I've been through it all, throughout all my dreams  
Throughout all my life, all my past  
And now in the future with my past at my ankles  
The present at tomorrow  
My fate at my shadow  
Forgive me forgiveness is the key to it all

[Midget Hook]

Forgive me for what I've done in the past  
'Cause now I've found my rightful path  
I've swam through broken glass  
And slept with broken hearts  
You'd watch me burn down, in a trail of molt and sparks  
So please believe, girl you gotta forgive me
