

## I Guess I'll Take Care

Midlake

I guess I'll take care  
Of my heart and brain and hair  
With a soda for the ride  
Seems to help me all the time  
Leaving there from you

I want you all the time  
You want me too  
I want you all the time  
You want me too

I guess I'll take care  
The next time that I'm there  
I'll serve breakfast in bed  
Have to make sure you're well-fed

You're a movie star  
You're a movie star  
You're a movie star  
You're a movie star
