

# The Courage Of Others

Midlake

I will never have the courage of others  
I will not approach you at all  
I was always taught to worry about things  
All the many things you can't control

How can they have the courage  
Of lords that have long since past  
It's in their hands, it's in their heads  
It's been in their blood for many years  
It brings them sorrow  
In a dark room he trembles alone  
He trembles alone
