

## Been Away Too Long

Midnight Oil

Fresh air soft landing  
So good to be home  
This bruised world's got it's beauty  
It's where I belong.

The sight of those green curves  
Quickens my heart  
Break the grip of Leviathan  
Now I'm ready to start.

Have I been away too long  
Have I been away too long  
Have I been away too long  
I just can't wait.

Saw big smoke umbrella  
Blue lights up close  
Exploiters of psyche  
Stealing the code.

I imagine completeness  
No spin cycle deceit  
Time and tide keep on rolling  
Now the world's at my feet.
