Scream in Blue

Midnight Oil

Come to me now, be careful of what you say Don't make a sound, there's noise enough in this Come with me now, let night move into day Let sheets keep secrets that no one else could know I could kill for this one time and not be caught She said to me this is the one and I know Come to me now, this is the final hour When I'm dreaming I dream in blue When I'm dreaming I dream of you When I'm screaming I scream in blue
