

# Bring Me Back To Life

Midnight Panic

I got lost along the way  
I needed time and my own space  
I wish I could erase  
All these victims on the street  
We lost the passion in inner peace  
Lets break up this fight  
On and on and on it never stops

Your eyes flick up but you know I care  
You've hit another wall and it's just not fair

Bring me back to life  
Help me see the light  
Souls have learnt to fly  
Bring me back to life  
Help me see the light  
Souls have learnt to fly  
So bring be back to life

I've bought a ticket to a place  
Somewhere that I can save our grace  
I wish I could erase  
All this trouble in my past  
I lost my faith and fell off track  
Lets break up this fight  
On and on and on it never stops

Your eyes flick up but you know I care  
You've hit another wall and it's just not fair

Bring me back to life  
Help me see the light  
Souls have learnt to fly  
Bring me back to life  
Help me see the light  
Souls have learnt to fly  
So bring be back to life

It's just not fair

Bring me back to life  
Help me see the light  
Bring me back to life  
Your eyes flick up but you know I care  
Help me see the light  
Bring me back to life  
Help me see the light

Bring me back to life  
Help me see the light  
Souls have learnt to fly  
Bring me back to life  
Help me see the light  
Souls have learnt to fly  
So bring be back to life

Help me see the light

Souls have learnt to fly  
Bring me back to life  
Help me see the light  
So bring me back to life  
So bring me back to life  
So bring me back to life
