

Captain's Hill

Mighty Oaks

See a cloud when we were young
The sight of seeing island, seemed so tall
Called me out, you pulled me up to run me down
Driving forth, in every stone
Jumping photograph is all I want, all I hold
To all is lost, memory are files in our minds

It's true, it's true
That we learn to live through you
It's true, it's true
That we learn to live through you

Where were you with bitter truth
For better days to turn around?
And if it's love, it's time to move
I feel we've stretched to thin and loud

It's true, it's true
That we learn to live through you
It's true, it's true
That we learn to live through you

And if I grow on the day I walk for a simple life
And I find a way to walk among...
And now I'm gonna leave the life alone
I walk alone, a lonely age, and I'm gonna turn my eyes to you
It's true

It's true, it's true
That we learn to live through you
