

# Just for Tonight

Migos

Just for tonight, oh  
Just for tonight, woo

I want you, you want me  
Just for tonight  
(Only one night)  
Just for tonight  
(Just for tonight)  
I want you baby (you)  
And you want me (me)  
Just for tonight  
One night (one night, one night)  
Yo

Look at my charm and baby look at my arm (look at it)  
You know you the bomb, I'm a call you Saddam (boom)  
I don't need your phone number, you coming home  
You don't really speak no English baby, where is you from?  
Never mind that, hop up in my coupe and let the top back  
Just a night to remember, get your recorder and rewind that  
Surrounded by bad bitches, baby you the finest  
Don't worry about it, it just mean you on Quavo Island  
First night, I was styling, I saw you smiling  
When I leave the club on four door, I let you be pilot  
When I get you to the room you know that I'm a dive in (splash)  
On the first night, lil mama going in

I want you, you want me  
Just for tonight  
(Only one night)  
Just for tonight  
(Just for tonight)  
I want you baby (you)  
And you want me (me)  
Just for tonight  
One night (one night, one night)  
Yo

Alright lil mama, lil mama said she want your Takeoff  
Keep our jet, private jet taking all me to my lake house  
Takeoff ain't no superman, ain't no need to bring that cape out  
Givenchy my skin is, Versace my sheets when I lay off  
I said don't touch boy, that jersey don't belong to you  
Taking a trip to pick up the set is what we known to do  
Tried to wet up my Mulsanne but it was bulletproof  
With them choppers, no binoculars, we looking for you  
Got your bitch on my line, she keep calling me  
Feel like my shadow when I'm walking, she keep stalking me  
Feel like she working for AT&T, she keep texting me  
Lil baby tryna get next to me, rubbing all in my jeans and piece, tryna hit  
the weed

I want you, you want me  
Just for tonight  
(Only one night)  
Just for tonight  
(Just for tonight)

I want you baby (you)  
And you want me (me)  
Just for tonight  
One night (one night, one night)  
Yo

Just give me an hour, I'll be the water to your flower  
I beat it, I'm killing it, make the pussy devour  
Got me all in your walls, I'm tryna knock down the tower  
I'm not really involved with buying gifts and the flowers  
She see my diamond it dancing, they globing into your water, like top me off  
Tried to kiss me, fuck that, and call her again, she lost  
It's only for one night cause I know that you not really worth it  
If I text you tomorrow you gonna be asking for Birkin  
Don't be involved in your feelings cause obsolete bitches hurting  
I gots to get me a condom cause I don't want no more garbage  
I'm in the Maybach with curtains, she suck me up like a sherbert  
We fucking these bitches with the lights on  
And we don't fuck under cover

I want you, you want me  
Just for tonight  
(Only one night)  
Just for tonight  
(Just for tonight)  
I want you baby (you)  
And you want me (me)  
Just for tonight  
One night (one night, one night)  
Yo
