

For Ever For You

Miguel Bosé

Once there was darkness
Now there is light
Life had no meaning
You made it right
I couldn't love, but...
You taught me how
You wonder who's real, it is now

Now is so helpless
I sting myself
Feeling so lonesome
Feeling disgraced
You came along and
Dried all my tears
Your love has made me lose all my fears

How... you love me
May I say I love you too ?
How... you want me
Take it for ever for you

Give me all right soul
May I touch sight
Don't tell me lies
Justice and rights
Give me your touch action
Please me so near
How I want to have you here

How... you love me
May I say I love you too ?
How... you want me
Take it for ever for you

You're so divine
Together we can make it come true

How... you love me
May I say I love you too ?
How... you want me
Take it for ever for you

How... you love me
May I say I love you too ?
How... you want me
Take it for ever for you
