

Girls, Girls, Girls

Miguel Bosé

There's nothing as appealing
Nothing's got the feeling
Of girls (funky), girls (foxy), yes, girls
Nothing's so contagious
Nothing as outrageous
As girls (funky), girls (foxy), girls

I'm sure I am inflicted I must be addicted
'Cause I can't stop this falling in love
Better keep your distance I've got no resistance
No, I can't stop this falling in love

Always know where you are
I've got this in-built radar
For girls (funky), girls (foxy), girls
In all the strangest places
I find the pretty faces
Of girls (funky), girls (foxy), girls

I'm sure I am inflicted I must be addicted
'Cause I can't stop this falling in love
Better keep your distance I've got no resistance
No, I can't stop this falling in love

I'm sure I am inflicted (Yes, I am...)
I must be addicted
'Cause I can't stop this falling in love (In love...)
Better keep your distance (Get away)
I've got no resistance
No, I can't stop this falling in love (This falling in love...)

Funky foxy girls
Funky foxy girls
Got to have those girls
You know I need them girls

There's nothing as appealing
Nothing's got the feeling
Of girls, girls, girls
Nothing's so contagious
Nothing as outrageous
As girls, girls, girls, girls, girls

I'm sure I am inflicted I must be addicted
I can't stop this falling in love
Better keep your distance I've got no resistance
I can't stop this falling in love

I'm sure I am inflicted I must be addicted
'Cause I can't stop this falling in love
Better keep your distance I've got no resistance
No, I can't stop this falling in love

Sure I am inflicted I must be addicted
'Cause I can't stop this falling in love
Better keep your distance I've got no resistance
No, I can't stop this falling in love

I can't, I can't, I can't stop
Baby, I can't stop this falling in love
I can't, I can't, I can't stop
Baby, I can't stop this falling in love
I can't, I can't, I can't stop
Baby, I can't stop this falling in love
I can't, I can't, I can't stop
Baby, I can't stop this falling in love
I can't, I can't, I can't stop
Baby, I can't stop this falling in love
