Out to go thru your chosen door Standing on the steps to paradise Someone else is taking on your space Standing on the steps to paradise

Can't you see it's only you for me Standing on the steps to paradise All I see is how our love should be Standing on the steps to paradise Paradise, paradise, paradise...

All I'm wanting to say
Is you are my paradise, paradise
Dreaming day after day
It would be a paradise, paradise
Come back baby to me
So we could taste paradise, paradise
Take my hand and we'll be
Forever in paradise, paradise

Come on back
We've been our separate ways
You know where we belong, it's paradise
Without your love I'm helpless on my own
Standing on the steps to paradise
Paradise, paradise, paradise...

All I'm wanting to say
Is you are my paradise, paradise
Dreaming day after day
It would be a paradise, paradise
Come back baby to me
So we could taste paradise, paradise
Take my hand and we'll be
Forever in paradise, paradise...

All I'm wanting to say
Is you are my paradise, paradise
Dreaming day after day
It would be a paradise, paradise
Come back baby to me
So we could taste paradise, paradise
Take my hand and we'll be
Forever in paradise, paradise...
