

The Eighth Wonder

Miguel Bosé

¿Hay alguien ahí afuera?
Hueyatlan tetecuica auh tlatoa totonametl in manic
Que quiere decir
El mar que late y habla con la voz del que perdura resplandeciendo
¿Y quiénes son sus habitantes?
Son ellos... ¡Míralos!

This house is burning
All our hands light a flame
In times of trouble we our tears lost like rain

We stand, we stand so proud
We stand so proud
We stand, we stand so tall
But we stand divided

The eighth wonder of the world
Is the wonder of the world we live in...
The eighth wonder of the world
Is the wonder that we live together

This train is running with no driver, no tracks
The line to reason must surely go back

We stand, we stand so proud
We stand so proud
We stand, we stand so tall
But we stand divided

The eighth wonder of the world
Is the wonder of the world we live in...
The eighth wonder of the world
Is the wonder that we live together

The eighth wonder of the world
Is the wonder of the world we live in...
The eighth wonder of the world
Is the wonder that we live together

Is there a room for our brothers
For our friends and our lovers...?

We stand, we stand so proud
We stand so proud
We stand, we stand so tall
But we stand divided

The eighth wonder of the world
Is the wonder of the world we live in...
The eighth wonder of the world
Is the wonder that we live together
