

Teach Me

Miguel

I just want to be wherever you are
I just want to know you're there
I just want to see whatever you see
'Cause I know you're not too shy to say it, no

'Cause everywhere I go and everyone I touch
What I already know is not enough
And no one's taught me quite like you, no

Following my eyes, searching for the real
Knowing that there's not much else
Tell me that you hear what I'm saying
Ooh, I swear you know the very best way to

Teach me, train me, guide me, babe
Only you can release the love inside me, babe
Waited my turn and I'm ready to learn now
Teach me, train me, guide me, babe

Only you can release the love inside me, babe
Get it up, love me down, playing with my dirty mind

Show me something, show it to me, show me something
Playing with my dirty mind
Show me something, show it to me, show me something
Playing with my dirty mind

I just want to feel whatever you feel
Feel it at the very same time, yeah
I want to know how to make you cry, how to make your body cream
Fill my dirty mind with your favorite erotic dream

Ooh, show me what to do, yeah

'Cause everywhere I go and everyone I touch
What I already know is not enough
And no one has taught me quite like you

Following my eyes searching for the real
Knowing that there's not much else
Tell me that you hear what I'm saying
Ooh, I swear you know the very best way to

Teach me, train me, guide me, babe
Only you can release the love inside me, babe
Ooh, waited my turn and I'm ready to learn, now
Teach me, train me, guide me babe

Oh, only you can release the love inside me, babe
Get it up, love me down, playing with my dirty mind

Anywhere we are
I'm daring you to demonstrate
The front seat in my car
Close your eyes and accelerate

If you never seen this side of me

Take a ride on my rocket, babe
Your body is a party
And I just want to celebrate

Anywhere we are
I'm daring you to demonstrate
The front seat in my car
Close your eyes and accelerate

If you never seen this side of me
Ride on my rocket, babe
Your body is a party
And I just want to celebrate

Anywhere we are
The front seat in my car
If you never seen this side of me
Your body is a party, babe

Anywhere we are
The front seat in my car
If you never seen this side of me
Your body is a party, babe

Teach me, train me, guide me, babe
Release the love inside me, babe
Teach me, train me, guide me, babe
Release the love inside me, babe
