

# Vixen

Miguel

Let's play a little game  
Just between you and I  
I'll be yours in physical  
You gotta use your mind  
We can be cops and robbers  
Tarzan and Jane, Marilyn and Robert  
But either way the objective is the same  
To please and entertain

You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time

Why not be creative  
Pull out all the stops  
You can pick the scene  
If I can pick the props  
Do you prefer classroom or office  
Masquerade expert or novice  
We can play  
The objective is the same  
To please and entertain

You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time

But baby together we can't lose!  
And I know you're always down for something new  
When we're making love girl let's put on a show  
Until the curtains close  
Until the curtains close  
Til the curtains close  
Til the curtains close

You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time

You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise

Delivering a captivating performance every time

So would you like to play  
Be my vixen

You always said you wanted to be an actress
