

## Cult Logic

Miike Snow

All my life I've been the slave of consequence  
wondering how this life could be so intricate.  
I wanna rewrite my heart and let the future in  
I wanna open it up and let somebody in

can you free me from the logic that I knew  
I believe it even if it is not true.

Am I falling asleep on my feet again?  
I call out, is anybody listening  
and it's like I'm diving into emptiness  
but at least there's something beating in my chest

can you free me from the logic that I knew  
I believe it even if it is not true.
