

Kids

Mika

The kids are playing in the sun
They think their life has just begun
For them it's just another day
Playing games only kids would play

There won't be a me and you
If we keep on fighting like we do
Baby don't you walk away
Saying things only kids would say
Kids what do they know about nothing now
Lover love when your hear and I love when you're gone
Just another California day

[Chorus: 2x]

Take your kid gloves off
This is love not war
Give our peace a chance
Make it worth fighting for

You shout with nothing to say
And fight till you get your way
It hurts but what can I do
I won't turn into a kid too
Kids what do they know about nothing now
Lover love when your hear and I love when you're gone

[Chorus: 2x]

Take your kid gloves off
This is love not war
Give our peace a chance
Make it worth fighting for

You're playing in the sand and the sun
You think your life has just begun
You're throwing all my love away
Just another California day
Kids what do they know about nothing now
Just another California day
Lover love when your hear and I love when you're gone
Just another California day

[Chorus: 2x]

Take your kid gloves off
This is love not war
Give our peace a chance
Make it worth fighting for
