

# Underwater

Mika

Bursting through a blood red sky  
A slow landslide  
and the world we leave behind  
It's enough to lose your head,  
disappear and not return again...  
When I fall to my feet  
Wearin' my heart on my sleeve  
All I see just don't make sense  
You are the port of my call  
You shot and leavin' me raw  
Now I know you're amazing

'Cause all I need  
Is the love you breathe  
put your lips on me  
and I can live underwater,  
underwater, underwater!  
Underwater!

Flying through a bright blue sky  
with a space boy high  
from the world I leave behind  
It's enough to lose my head  
disappear and not be seen again  
When I fall to my feet  
Wearin' my heart on my sleeve  
All I see just don't make sense  
You are the port of my call  
You shot and leavin' me raw  
Now I know you're amazing

'Cause all I need  
Is the love you breathe  
Put your lips on me and  
I can live underwater,  
underwater, underwater!  
Underwater!

Underwater underwater  
I can live underwater  
With your love I can breathe  
I can breathe underwater

Underwater underwater  
We could live underwater  
With your love I can breathe  
I can breathe underwater

Underwater underwater  
We could live underwater  
With your love we could breathe  
We could breathe underwater
