

## My Dream Is Gone

Mikaila

Late at night when you're all alone  
I'll be there for you  
After dark when you're on your own  
I'll be your dream come true

When I lay my head to sleep  
You're here with me  
I wanna do it all over again  
But your love is hard to keep  
I'm in too deep  
Forever praying this night will never stop  
Get up, it's eight o'clock  
And I'm still at home, all alone  
My dream is gone

I just can't get you off my mind  
And the nights we share  
I can wait for you one more time  
Cause baby I know you'll be there

But you're still here  
I'll always keep you in my heart  
Baby you'll be there for me  
Every time when I go to sleep  
Ooh  
No matter if I'm all alone  
I can tell you how I feel  
Almost like you are here for real

[Chorus]
