

Always Listen To Your Heart

Mike & The Mechanics

Always listen to your heart
Always listen to your heart

Don't make the same mistakes
The ones that I have made
The consequence could lead you to an early grave
This is my best advice To one so young and brave
Always listen to your heart
Always listen to your heart

We live in stressful times
It's hard to make ends meet
Sometimes it's hard to know
The way to point your feet
Life, sometimes devious
Can fool you with deceit
Be sure to listen to your heart

Always listen to your heart
It's only just begun
Your precious life
One day you'll identify right from wrong
So don't fail to be strong

Always listen, listen to your heart
Always listen, listen to your heart

Never tell a lie honest from the start
Just take good care of it
Don't let it fall apart
Be sure to listen to your heart
Always listen to your heart

It's only just begun
Your precious life
One day you'll identify right from wrong
So don't fail to be strong

Always listen, listen to your heart
Be sure you don't just let it fall apart

Be sure to listen to your heart
Always listen to your heart
Be sure to listen to your heart
Be sure to listen to your heart
Always listen to your heart
Always listen, listen to your heart
Be sure you don't just let it fall apart

Always listen to your heart
Be sure to listen to your heart
Always listen to your heart
Be sure to listen to your heart
