Beautiful Day

Mike & The Mechanics

Four o'clock in the morning Waiting for the light It's another day dawning Another day A better life.

Walk out in the morning sun I'm always going to be With you

Lay down when your day is done I'm always going to be With you.

I don't blame you for crying No-one else could see But today we'll be flying Forever you Forever me.

Walk out in the morning sun I'm always going to be with you Lay down when your day is done I'm always going to be With you

No doubts now we're free to run I'm always going to be With you.

It's a beautiful, Beautiful day....
