

# Hunt You Down

Mike & The Mechanics

Love will always hunt you down  
Now the chase is on around and around  
Love will always hunt you down  
I hope that we can make it  
I hope that one day you will come around

Don't write me off  
Before we begin  
You act like love is a sin  
But even losers can win

Don't cut me out  
For now we are here  
There is no time for tears  
And it's a long way from over

Love will always hunt you down  
Now the chase is on around and around  
Fools are we to think we'll stay apart  
I hope that we can make it  
I hope that one day you will come around

Don't shoot me down  
Give it a chance  
Why don't you finish the dance  
Now we've got time on our hands

Don't hold me back  
Don't shut down your heart  
This is only the start  
And it's a long way from over

Love will always hunt you down  
Now the chase is on around and around  
Love will always hunt you down  
I hope that we can make it  
I hope that one day you will come around

Love will always hunt you down  
Now the chase is on around and around  
Love will always hunt you down  
I hope that we can make it  
I hope that one day you will come around
