

## Open Up

Mike & The Mechanics

Don't ask me why should it always be  
So hard to let my feelings show  
I've thought it over a thousand times  
Why you didn't leave, I'll never know

Now I assume you can read my mind  
I don't understand why you're confused  
I know you're making a big mistake  
If you really believe you're being used

I've never really let you know just  
what you mean to me  
But how I wish you'd let me try again

If I could see you now  
I'd open up my heart  
And tell you everything  
I should have all along  
If I could see you now

Sometimes I feel I could lose my mind  
If you don't believe me when I say  
I'll do my best to do right this time  
I'm trying to change everyday  
I've never really let you know just  
what you mean to me  
But how I wish you'd let me try again

If I could see you now  
I'd open up my heart  
And tell you everything  
I should have all along  
If I could see you now

I'd tell you everything that's in my heart  
I only wish that I could see you now  
I'd open up my heart  
Tell you everything  
I should have all along  
If I could see you now  
I'd open up my heart  
If I could see you now
