

# Reach Out (Touch The Sun)

Mike & The Mechanics

It seems that I've  
Fallen to the ground  
It seems like I'm whole again  
What can they do  
I've learnt to take it  
If only I knew then

The world is turning night and day  
So love let it shine away

Reach out and touch the sun  
Reach out and feel again  
You've gotta reach out  
Again

This situation,  
Coming to the end  
Now the light is back again

And I will never be afraid  
So love let it shine away

Reach out and touch the sun  
Reach out and feel again  
You gotta reach out  
Again

Reach out and touch the sun  
I know that you'll make it  
Through the rain  
You gotta reach out  
Again

And it's good that  
We won't be afraid  
Coz every night and day  
When you're trying to make it  
And you know you'll find a way

Reach out and touch the sun  
Reach out and feel again  
You've gotta reach out  
Again

Reach out and touch the sun  
I know that you'll make it  
Through the rain  
You gotta reach out  
Again
