

The Road

Mike & The Mechanics

And the road gets brighter
And the load gets lighter
And it's so much better
Better every step we take together

Ooh look where we've come
Looking back who'd of thought
We could do what we've done

We still got
So much to carry
So far to go
(Still got)
So much to learn
So much we don't know
Maybe we'll stumble, maybe we'll fall, but
We got each other to hold

And the road gets brighter
And the load gets lighter
And it's so much better
Better every step we take together
And the life tastes sweeter
And the love runs deeper
And it's so much better
Every step we take together

Let's take our time
And the way that we're going
It's gonna be fine

We still got
So much to carry
So far to go
(Still got)
So much to learn
So much we don't know
Maybe we'll stumble, maybe we'll fall, but
We got each other to hold

And the road gets brighter
And the load gets lighter
And it's so much better
Better every step we take together
And life tastes sweeter
And the love runs deeper
And it's so much better
Better every step we take together
