

# Like A Luminous Girl

Mike Doughty

Saw you in th subway station  
Shining with a strange light  
Girl, you're like a weird vacation  
How am I gonna make you mind, make you mind

Then I fell out on the streets  
To write a love song  
Your face stared out at me from an ad  
On the bus stop wall

And I know that you're fine  
And that you're right  
And the moonlight shines  
Like a luminous girl tonight

Saw you in the shipwreck disco  
Ghostly drifting cross the floor  
Wondering just where could this go  
And how to get you out the door, out the door

Then I fell out on the streets  
To write a love song  
Your face stared out at me from an ad  
On the bus stop wall

And I know that you're find  
And that you're right  
And the moonlight shines  
Like a luminous girl tonight, that's right

Shining with the lights going strong  
Shining with the lights going strong on my own

Saw you in the morning sunshine  
You sang "star love in the night"  
Fighting all the tears that came on  
Squinting in the yellow light, the yellow light

Then I met you at the station  
In ronkonkoma  
Sweetly resonating  
With the things you are

And I know that you're fine  
And that you're right  
And the moonlight shines  
Like a luminous girl tonight

Yeah, Jesus Christ's  
Like a luminous girl tonight  
Yeah, the moonlight shines  
Like a luminous girl tonight
