

## Ways And Means

Mike Doughty

The best I ever did with my life  
Said just three honest words to you  
Three droplets in a pail of lies  
Three gems among the alibis

Yes, I know the ways and means I are, Ma,  
Yes I know the ways and means I are.

The best I ever did with my love  
Said your name on the microphone  
You heard it the restaurant  
Cashed out and brought your tips on home

The best I ever did with my bucks  
Put two down on your horse to show  
She lost but just kept racing 'round  
Kept running 'til the sun went down
