Riding with my niggas

And we shooting at the piggas  
'Cause you know we don't give a

Daytime matters not, we still throw back shots  
And we cause road blocks  
Turn streets into parking lots  
My income now comes in like volleys in tennis  
And I own this in a sense every person's a tenant  
In a week I can come up to a Porsche from a Honda  
Feds be lurking dip through Hollywood, don't turn on Santa Monica  
Stack commas, you get richer, zeros on Mondays  
And bring donuts for the bitches, everything with best intentions  
Figure them out  
Now my women run to give me hugs  
They love drinking drugs, they no loser in his game  
Is the first to fall in love, I won't lie  
It was easy to get you  
Now since I'm with you friends wanna join the club  
If it every jumps off then we will get ill  
With the smoke kills got you throat oh so chill  
We turn it up  
Till this ... like every metal lot like punk rock  
Got issues in this loiter squad  
Lurking in your parking lot

Riding with my niggas  
Got them fingers on them triggers  
And we shooting at the piggas  
'Cause you know we don't give a

I cruise through with a skateboarder's frame  
I reign so long I could douse spitfire's flames  
So lifted with my weapon to the ground I aim  
If I fire off rounds I can shoot down planes  
I'm a walking masterpiece, inaudible auto war  
Life's not a movie, our tours are blockbusters like Jaws  
I'm a universal legend, we switch lives for a day  
Broke niggas be in heaven, judgmental then you need lessons  
You should be second guessing your wardrobe selections  
Your doors up closed like criminals with excessive arrest  
See you rocking with the best, I can do this forever, nigga  
I'm up for whatever, down for murder anytime  
Temperature, any weather, my aim is to get better  
And you listen to my lectures like college professors  
Stack green, I got flow  
You can't store in canteens  
I'm the man, I'm the sun, I'm a lion, I'm a king
