

One More Time

Mike Ness

The sky looks so dark, looks like it might rain
My babies gone, on the south bound train
Come back baby, lets try it over
One more time ,just one more time

She left me here, did not tell me why
I only know she, left me here to cry
Please come back baby, lets try it over
One more time, just one more time

She left me alone, on her on accord
This I gotta leave I know, in the hands of the lord
Please come back baby, lets try it over
One more time, just one more time
One more time, just one more time
One more time, one more time
One more time
