

## One More Time

Mike Ness

The sky looks so dark, looks like it might rain  
My babies gone, on the south bound train  
Come back baby, lets try it over  
One more time ,just one more time

She left me here, did not tell me why  
I only know she, left me here to cry  
Please come back baby, lets try it over  
One more time, just one more time

She left me alone, on her on accord  
This I gotta leave I know, in the hands of the lord  
Please come back baby, lets try it over  
One more time, just one more time  
One more time, just one more time  
One more time, one more time  
One more time
