## **Rest Of Our Lives**

## Mike Ness

Eighteen years in a traveling band Seen a lot of one night stands And still I found myself so very much alone

And it took those years to find myself Wasn't lookin' for no one else And then I found you girl But you were there all along

And we'll spend each day like it's the last day of the rest of our lives

I'll be the king you'll be my wife Gonna make it thru this thing called life Gonna raise these kids on our own The very best we can

And sixteen hours is a long, long time When you gotta love that's on your mind Can you tell that I'm not right?

I'm a little distraught

And we'll spend each day like it's the last day of the rest of our lives

Everyday we'll fall in love just a little more

For the rest of our lives

Sittin' here in the county jail Ain't no one to go my bail I shoulda been there with you For some sympathy and tea

And eighteen years in at traveling band Seen a lot of one night stands And still I found myself so very much alone
