

# Saved By a Bell

Mike Oldfield

Would you like to look through my telescope?  
The Milky Way's a fine sight to see.  
All around our universe, we try so hard to view  
What's new.

Make a trip down to Sagittarius  
And take a spin by some nebula.  
I hope the sky stays clear for us, tonight goes on so far  
In stars.

Saved by a bell,  
Suffer in hell,  
But you were too blind to tell.  
Saved by a bell,  
Suffer in hell,  
And you made it through so well.

Shining like bright diamonds, the galaxies.  
Jupiter and Saturn spin by.  
Passing by companions, they all go drifting by.  
They fly!

Carry me down to see Aquarius.  
We're hoping to meet a shooting star.  
I can see there's 'gonna be a message from afar.  
How close we are.

Saved by a bell,  
Suffer in hell,  
But you were too blind to tell.  
Saved by a bell,  
Suffer in hell,  
And you made it through so well.  
anything wrong with the chords.
