

## Carry On

Pinder, Mike

Your smile has been so good to me;  
You made my blues disappear...  
You helped pull me through  
The darkest hours with truth and love.  
So live your life in bliss,  
And take this tender kiss for your flower;  
My inspiration now  
Is what you gave to me every hour.

Carry-on, the past has gone and paid for  
Solo-on, through the door you're made for  
Love flows on, through the gates of heaven  
We are one, by the light of seven.

The saints and the saviour have all talked about  
The cause of our downfall and how to get out  
The yogis and mystics on spiritual planes,  
The gurus and devas they all say the same.  
Spiritual flame...keep it burning.

In faith we'll journey on,  
Love's promise gets it on, oh yea  
And everyone will be sparks of the family of love.  
Somewhere beyond the sun, the lord he turned me on and on.  
He said, "be not afraid, the summer's gonna come one of these days..."

Carry-on! the past has gone and paid for  
Solo-on! through the door you're made for  
Love flows on, through the gates of heaven  
We are one, by the light of seven.

A new thing is happening on this planet now,  
We're hearing the buddha, the christ and the tao  
The mystery of music is mystery no more  
It powers the starships...the colours of awe...  
It powers us all and that's all...
