You Can't Take The Love Away

Pinder, Mike

You can hang up the telephone You can spend the night alone Run around, try and bring me down, But there's one thing you should know You can't take love away You can't take my love away I'll love you 'til forever

You can turn down the radio You can say it isn't so Maybe cry, see another guy, There's one thing you should know You can't take love away You can't take my love away I'll love you 'til forever

Sometimes I wonder When our love is not so strong The days when things go wrong You leave me sighing Yet when we share our love Together you and i The flame of love is high And we are flying You can't take love away You can't take my love away I'll love you 'til forever

You can say you must be free You can sail across the sea Tell a lie, even say goodbye, But there's one thing you should know You can't take love away You can't take my love away I'll love you 'til forever

You can't take love away You can't take my love away No darling, I'll love you 'til forever You can't take love away No, no, 'cause I love you And you can't take that away from me I'll love you 'til forever
